694	SCRIVER RIM EAST	No	3.64	Closed to All Vehicles	N/A	N/A	N/A	N/A			

<sup>1</sup> - The Six-shooter EIS and ROD (2006) directed that a portion of NFS road 670 was to be relocated utilizing alternate routes that now part of NFS 621 road system. However, in completing intensive field work in the area, it was identified that the alternative routes had areas of unstable slopes and steep gradients. The portion of NFS 670 that was to be relocated has not be closed or rehabilitated to date. The action alternatives for this project proposed to keep NFS road 670 in its current location and it would remain designated as open to all vehicles.

\* All ML 1 NFS roads that are proposed to be "Open to Vehicles 50" or less in Width" in either action alternative would have dual designation of ML 1 NFS road and NFS Trail. A NFS Trail number on these routes would be assigned following this decision.
