

Fire Safety Refresher Training for Contractors

Refresher training is required for all dozer, watertender, crew bus, pickup and chipper operators along with fallers and mechanics.

Fire Safety Refresher Training for 2010 will now be taught by local Community Colleges and private training providers. Below is a list of current providers with contact information. Contractors need to contact the training providers for class schedules and locations in their area. Some of the training providers are available to provide training in any area of the state and will schedule classes in most areas as needed.

There are community colleges and private providers being signed up throughout the state. This listing will be updated continually as any new training providers come on line.
