Oak Glen Wildland Fire Risk Community Meeting

The San Bernardino National Forest, California Division of Forestry and the Oak Glen Fire Safe Council are sponsoring a community meeting to discuss wildfire risks on Wednesday November 10th 7:00PM at Pilgrim Pines Camp, 39570 Glen Road in Oak Glen.

A long-term community based strategy is essential to address the fire danger risk in Oak Glen. The agencies will present the current fire danger, fire history in Oak Glen, and the potential of a catastrophic wildfire. The agencies will present current projects to the community and look for community participation in future projects.

Please join us as we start the Fire Shed Assessment. This process was developed to involve all interested parties, including communities, landowners and local, state and federal government agencies in solving community wildfire protection issues.

Pilgrim Pines Camp is located on Glen Road which is off Oak Glen Road approximately ½ mile beyond the village.
