

**Annual Operating Instructions
2016
Wintch Allotments
Moroni Peak, South Water Hollow, Meadow Gulch
Richfield RD, Fishlake NF**

This AOI is made part of your grazing permit consistent with Part 1, item 3 and Part 2, Item 8(a). Situations may develop during the grazing season which requires changes to these instructions. If this becomes necessary, or if you cannot comply with some or part of these instructions, contact the District Ranger and obtain approval before initiating changes or deviating from these instructions. Failure to follow these instructions is a violation of your permit.

Allotment†	Ear Tag Color & #'s	Permitted*			Authorized**		
		Number	Class	Season	Number	Class	Season
South Water Hollow	White/Blue/orange	247	Cow/calf	6/6-10/5	all	Cow/calf	6/6-10/5
Moroni Peak	White/Blue/Orange	330	Cow/calf	6/6-10/5	all	Cow/calf	6/6-10/5
Moroni Peak (late)	White/Blue/Orange	80	Cow/calf	7/1-10/5	all	Cow/calf	7/1-10/5
Meadow Gulch	White/Blue/Orange	293	Cow/calf	6/1-10/15	all	Cow/calf	6/1-10/15

*Permitted use is the livestock numbers and season of use listed on your grazing permit.

**Authorized use is the number of livestock and season of use you are authorized for in the current grazing season and reflects stocking and/or season of use adjustments for the given year.

†Permittee on listed allotments is Wintch & Company. The permittee gives the FS a list of numbers of each cow which is trucked to each allotment. List of numbers on which allotment will be available in the district office.

‡Temporary permit.

Non-use:

Please be aware that nonuse in excess of 10% of your permitted numbers must be requested at least 30 days before the “on” date. Nonuse for personal convenience may be approved on a year-to-year basis for a maximum of three consecutive years and not more than four years in any 10-year period. Longer periods of nonuse for range protection will only be approved under a written agreement.

Non-use requested: If yes, identify if for resource protection or personal convenience. If for personal convenience identify if it is 1st, 2nd, or 3rd consecutive year or the 4th in a 10-year period.

LIVESTOCK MANAGEMENT

Grazing Schedule

Unit (Pasture)	South Water Hollow	Tentative Dates*	Days/Unit	Number of Livestock
Spring Canyon		6/1-7/19		247
Wintch Pasture		7/20-8/7		247
South Water Hollow		8/28- 10/5		247
Jolly Mill		Rested		

Moroni Peak	Tentative Dates*	Days/Unit	Number of Livestock
Tommy Hollow	6/1-6/29		330
East Sheep Valley	Before seedripe 50%		420
West Sheep Valley	After seedripe 60%		420
Blackham Creek	After Seed Ripe 60%		420
Pine Creek (Rested)			

Meadow Gulch	Tentative Dates*	Days/Unit	Number of Livestock
Rock Canyon	50% Utilization		342
Saleratus	60% Utilization		342
Mud Lake	60 % Utilization		342

*The above schedule is an **estimate** and may be modified at any time if: utilization levels are met, water availability is inadequate, drought, delayed forage development or wet soil conditions.

Due to the Dixie harrow work and burn within the Jolly Mill Unit in 2015 we will be resting it again in 2016.

Allowable use levels are more important than tentative dates listed above. If allowable use levels are met early in the scheduled pasture, cattle will be required to be moved to another area of the pasture, moved to another pasture, or removed from the Forest. If early pasture moves occur, District range personnel or the District Ranger must be notified. Delayed pasture moves must be coordinated with District range personnel or the District Ranger prior to the scheduled move date.

Type of rotation: Rest Rotation, Deferred Rotation

All livestock must be removed from the Forest by the permitted off date listed above.

Previous year's grazing results: All three allotments met or exceeded the Fishlake National Forest Guidelines for grazing. All structural improvements that were inspected were found to be satisfactory.

Notice of Non-compliance/Suspension Actions: None

Additional instructions: None

UTILIZATION STANDARDS & MONITORING

Maximum Allowable Forage Use Criteria

Vegetation Type	Stubble Height/Use	Comments
Riparian Hydric Species	4"	Triggers the time to move livestock between units or off the allotment.
Riparian Emphasis Management Areas	6"	Triggers the time to move livestock between units or off the allotment.

Non-hydric sod forming grass species in riparian areas	1.5"	Primarily Kentucky bluegrass-Triggers the time to move livestock between units or off the allotment.
Wheatgrass seedings	60%	Management option to exceed 60% use to maintain healthy seedings.
Riparian/upland browse: Sprouts and young-aged plants	≤40%	# of current year's available twigs removed.
Riparian/upland mature browse	≤50%	# of current year's available twigs removed.
Upland grass/forb	40-60% of key species; varies by grazing system and desired condition	% of current year's growth.
Riparian ground cover	Maintain ground cover of at least 70% within riparian areas.	

The above utilization standards take precedence over the tentative dates listed in the grazing schedule. You are responsible to monitor your livestock and comply with the listed utilization standards and to move livestock prior to **any** of the above standards being exceeded.

Compliance monitoring inspections will be conducted by Forest Service personnel throughout the grazing season in key areas across the allotment. You are invited and it is recommended that you participate in these inspections.

Exceeding the utilization standards may be considered as non-compliance with your Term Grazing Permit and may be subject to suspension or cancellation of the permit.

Additional instructions: None

BILLING

Your annual grazing bill must be paid and notification received in our office prior to turning livestock onto the National Forest. It may take 10 days or more from the time you mail your payment until we receive payment notification so plan accordingly. Once we have received notification of your payment clearing the lock box, we will issue you a letter authorizing you to turn your livestock onto the allotment. Do not place your livestock on the allotment without this letter.

RANGE IMPROVEMENTS

You are responsible for maintaining the range improvements assigned to you in Part 3 of your Term Grazing Permit. All improvements are to be maintained to standard prior to livestock entering the allotment, even in the event of non-use. Standards are found in your Term Grazing Permit or at <http://www.fs.fed.us/r4/fishlake/resources/rangemgt.shtml> . Livestock entry onto the Forest may be delayed if improvements are not maintained to acceptable standards.

Scheduled reconstruction for upcoming season: None

You must obtain prior written approval from the District Ranger before constructing/installing structural range improvements or using or applying any pesticide/herbicide except for personal use of insect repellent.

Any improvement, which is no longer functional or no longer needed, will be removed from the allotment by the permittee. The removal of any improvement must have prior approval by the District Ranger.

Failure to maintain your assigned range improvements may be considered as non-compliance with your Term Grazing Permit and may be subject to suspension or cancellation of your permit.

Additional instructions: None

GENERAL INSTRUCTIONS

You or the association will furnish sufficient riders or herders for proper distribution, protection and management of livestock on the allotment as required by the Allotment Management Plan (AMP) and/or Annual Operating Instructions (AOI).

You are required to submit actual use information for the allotment. Please complete the enclosed form and return it to the district office within two weeks of removal of livestock from the Forest.

Salt and other dietary supplements are a distribution tool, and as such, should not be placed within ¼ mile of riparian areas, water troughs and ponds; within 200 ft. of designated roads, trails, trail heads or camping spots which have frequent use. Avoid salting in or near tree plantations or regenerating aspen stands. Exceptions to these standards must have prior approval.

Salt will be moved from areas where feed has been used to standards.

The Fishlake National Forest Travel Plan must be followed while managing livestock unless approved in advance and in writing by the District Ranger.

Livestock should be drifted instead of trailed wherever possible. Previously grazed units must have all livestock removed from them.

All livestock feed or straw brought onto the Forest must be certified weed free per Regional Forester's Order #04-00-058, dated March 26, 1996 (<http://www.fs.fed.us/r4/fishlake/resources/rangemgt.shtml>).

Dead livestock shall be moved at least ¼ mile from roads, water sources, and camping spots, which have evidence of frequent use.

All garbage resulting from activities associated with this permit shall be removed from National Forest lands and disposed of properly.

Additional instructions: None

If you have any questions call Bob Tuttle at 435-896-9233, Cell 435-979-7839.
