Date: August 1, 2005

Dear Friend of the Routt National Forest:

We've completed the Routt National Forest Five Year Review and 2003 Implementation and Monitoring Report. In addition to three Plan amendments that are in progress and near completion, this report recommends that we modify the 1997 Routt Forest Plan by adding definitions for winter and summer seasons, by adding standards and guidelines to protect forest resources, and by correcting the instream flow standards and guidelines as directed in the Plan appeal decision and in a discretionary decision by the Secretary of Agriculture. Additional administrative actions are also recommended and can be found in the full report.

This report can be found on the internet at

<http://www.fs.fed.us/r2/mbr/projects/forestmonitoring/index.shtml>

If you have any questions about the report please contact Lynn Jackson at (307) 745-2472.

Sincerely,

[/s/ Mary H. Peterson](#)
