INLAND LAKES - WEST SIDE

Welcome to the Hiawatha! Our Lakes offer a wide variety of fish species and habitats managed cooperatively with the Michigan Department of Natural Resources (MDNR).

This guide presents information on lakes that have public access and usually offer an attractive sport fishery for one or more of the listed species. Species composition and abundance vary from year to year due to natural factors and fisheries management activities. For more detailed information, contact the nearest Forest Service district office or the Michigan Department of Natural Resources at Escanaba or Newberry.
