TRAILS
SUPERSTITION WILDERNESS

There is a network of some 170 miles of “system” trails serving the Superstition Wilderness Area and contiguous areas. Their condition varies from satisfactory to very poor. All trails are closed to motor vehicles and mechanical transport such as bikes.

Use a great deal of caution when traveling on backcountry trails such as this one and be aware of the risks you assume.

A few brief comments are in order about the following trail:

**Dutchman’s Trail 104:** 18.2 miles long. A long trail that meanders through the Wilderness, intersecting many other trails. Generally in good condition, but parts are heavily used. Elevation: 2,280 feet - 3,250 feet. Termini: **Peralta TH** (Forest Road 77), and **First Water TH** (Forest Road 78).

No more than 15 people are allowed to be in a group. No more than 15 head of livestock are allowed in a group.
