

TRAILHEADS SUPERSTITION WILDERNESS

There are a network of some 170 miles of “system” trails serving the Superstition Wilderness Area and contiguous areas. Their condition varies from satisfactory to very poor. All trails are closed to motor vehicles and mechanical transport such as bikes.

Use a great deal of caution when traveling on backcountry trails such as this one, and be aware of the risks you assume.

While we do not want to take away the visitor’s sense of discovery and adventure, we do feel a few brief comments are in order about the following trail:

JF Trail 106: 10.2 miles in length. A main north-south trail named after Jack Fraser; A pioneer cattleman in this area. Elevation: between 3,250 feet and 4,560 feet. Termini: Woodbury TH (Road 172), and Tortilla TH (Road 213).

Remember that no more than 15 people are allowed to be in a group. A limit of no more than 15 head of livestock are also allowed in a group.
