SNOW SNOOPS

Snow Snoops is a new afterschool club!

Join us to learn about the outdoors in winter through hands on activities, craft projects, and nature investigations!

The club will meet at Corvallis Primary School on certain Fridays from November through March. We will also go on three field trips to snowshoe, geocache and just have fun in the snow!

Program Dates

After school: Nov 14, Nov 21, Dec 5, Jan 9, Jan 23, Feb 13, Mar 6

Early out day field trips: Jan 30, Feb 25, Mar 18

Here are some questions we will try to answer:

What do animals do in winter?

Why do snow flakes have so many different shapes?

How do plants survive through the winter?

Why do snowshoes hold you up in the snow?

Why is clean water important?

Here are some things we will do:

Make weather reports

Nature scavenger hunts

Animal relays

Teambuilding games

Find our way with compass and GPS

Snowshoe

Have a winter picnic

Learn COOL things about snow!

These institutions are equal opportunity providers.
