

TRAILS FOUR PEAKS WILDERNESS

There is a network of some 40 miles of “system” trails serving the Four Peaks Wilderness Area and contiguous areas. Their condition varies from satisfactory to very poor. All trails are closed to motor vehicles and mechanical transport such as bikes.

Use a great deal of caution when traveling on backcountry trails such as this one and be aware of the risks you assume.

A few brief comments are in order about the following trail:

Brown’s Trail 133: 2 miles long. This trail was constructed in 1988-89 and is in good condition. Grade, trend, and alignment are favorable. It joins Amethyst Trail 253 just below Brown’s Saddle. Elevation: 5700 - 6760 feet. Difficulty Level: More difficult. Use Level: Heavy. Termini: **Lone Pine Saddle TH.**

Use of any mechanized or motorized is prohibited on this trail. No more than 15 people are allowed to be in a group. No more than 15 head of livestock are allowed in a group.
