

TRAILS FOUR PEAKS WILDERNESS

There is a network of some 40 miles of “system” trails serving the Four Peaks Wilderness Area and contiguous areas. Their condition varies from satisfactory to very poor. All trails are closed to motor vehicles and mechanical transport such as bikes.

Use a great deal of caution when traveling on backcountry trails such as this one and be aware of the risks you assume.

A few brief comments are in order about the following trail:

Pigeon Trail 134: 2 miles in length. This is a route that was reconstructed in 1989-90 and is in good condition. The long ¼ mile was an old jeep road to Pigeon Spring. It goes through ponderosa pine forest to its intersection with Four Peaks Trail 130. Elevation: 5440 - 5640 feet. Difficulty Level: Easiest. Use Level: Moderate. Termini: **Lone Pine Saddle TH**. There is also space for a couple of vehicles at this trail's terminus with Forest Road 648.

Use of any mechanized or motorized is prohibited on this trail. No more than 15 people are allowed to be in a group. No more than 15 head of livestock are allowed in a group.
