

Errata 3 February 23, 2004

Plan Chapter 2:

Management Area Prescription 5.12 Standards and Guidelines for Vegetation on page 2-57 states "Use a full range of biologically appropriate silvicultural practices. Timber harvest is scheduled and does contribute to the allowable sale quantity. Opportunities are provided to collect firewood." This standard is in error and should read "Use only those vegetation management practices necessary to meet specific resource objectives other than wood production. Timber harvest is not scheduled and does not contribute to the allowable sale quantity." (new page 2-57 attached)

Final Environmental Impact Statement, Chapter 3:

Chapter 3, Table 3-201 on page 3-587 under the column Size Class states "4 Late Successional" this should read "4 Mature". (new page 3-587 attached)

Final Environmental Impact Statement, Appendix I:

Part 2: Biological Evaluation of Sensitive Species page I-143:

1. In the 2nd paragraph under Environmental Consequences, the sentence "For newly planned activities.... provide a 1/2 mile buffer..." should read "provide a 1/4 mile buffer..." (new page I-143 attached)
2. In the 2nd sentence in the first paragraph under "Protection in Plan. "Alternatives A and F protect a 1/4 mile buffer around active nests; the other alternatives protect a 1/2 mile buffer." This sentence should be dropped. (new page I-143 attached)
