

Errata #2 February 2006 through August 2007

Document, Section, Page	Error / Original Text	Correction
Northern Rockies Lynx Amendment		http://www.fs.fed.us/r1/planning/lynx/documents.htm
Plan Chapter 1, page 1-40	None	Monitoring plan updated based on review of 2005 monitoring plan.
Final EIS, Appendix B, page B-10	<p>8. Non-Forested Sites – Revisited The latest Regional process describes removing a buffer of non-productive land around highways, Forest Development Roads, and streams. These buffers consist of the highway right-of-way (66 feet on either side of the center line), the FDR road profile (8 feet on either side of the center line), and an average stream width (3 feet on either side of the center line for a perennial stream). See Table B-3 for the earlier buffer method.</p>	<p>8. Non-Forested Sites – Revisited The latest Regional process describes removing a buffer of non-productive land around highways, Forest Development Roads, and streams. These buffers consist of the highway right-of-way (66 feet on either side of the center line), the FDR road profile (8 feet on either side of the center line), and an average stream width (3 feet on either side of the center line for a perennial stream). The regional process buffer widths were used for the Draft EIS analysis. For the Final EIS the buffer widths shown in Table B-3 were used. The buffer widths in Table B-3 were developed in consultation with the Forest Engineer and Forest Hydrologist.</p>
Forest Plan, Appendix C	List of sensitive species	Region 2 update to sensitive species list.
