

APPENDIX C-LRMP AMENDMENT CHANGES COMPARISON TABLE

Item #	Alt 1 No Action Current LRMP Direction	Alt 2 Revise or Replace With:	Alt 3 Revise or Replace With:	Alt 4 Revise or Replace With:	Alt 5 Revise or Replace With:
#1	Chapter 1, F-21. Any net loss of suitable black-footed ferret habitat as a result of prairie dog poisoning or development of new facilities within colonies shall be replaced within the year. This is based on the amount of suitable habitat available prior to prairie dog dispersal in the year of the poisoning or development. Standard	Chapter 1, F-21 (revised). Any net loss of suitable black-footed ferret habitat as a result of development of new facilities within colonies shall be replaced within the year. This is based on the amount of suitable habitat available prior to prairie dog dispersal in the year of the development. Standard	Chapter 1, F-21 (revised). Any net loss of suitable black-footed ferret habitat as a result of development of new facilities within colonies shall be replaced within the year. This is based on the amount of suitable habitat available prior to prairie dog dispersal in the year of the development. Standard	Chapter 1, F-21(revised). Any net loss of suitable black-footed ferret habitat as a result of development of new facilities within colonies shall be replaced within the year. This is based on the amount of suitable habitat available prior to prairie dog dispersal in the year of the development. Standard	Chapter 1, F-21 (revised). Any net loss of suitable black-footed ferret habitat as a result of development of new facilities within colonies shall be replaced within the year. This is based on the amount of suitable habitat available prior to prairie dog dispersal in the year of the development. Standard
#2	Chapter 1, H-1. 1. Prohibit the use of rodenticides (grain baits) for reducing prairie dog populations to the following situations: <ul style="list-style-type: none">▪ Public health and safety risks occur in the immediate area,▪ Damage to private and public facilities, such as cemeteries and residences. Standard	Chapter 1, H-1 (revised). 1. Limit the use of rodenticides (grain baits) for reducing prairie dog populations to the following situations: <ul style="list-style-type: none">▪ Public health and safety risks occur in the immediate area,▪ Damage to private and public facilities, such as cemeteries and residences.▪ On prairie dog colonies that are expanding on to neighboring private lands where they are not wanted.▪ Colonies outside Categories 1, 2, 3, and 4 (as identified in strategy, LRMP Appendix #) if the Forest Service determines they are not needed for habitat for prairie dogs, black-footed ferrets or other associated species. Standard	Chapter 1, H-1 (revised). 1. Limit the use of rodenticides (grain baits) for reducing prairie dog populations to the following situations: <ul style="list-style-type: none">▪ Public health and safety risks occur in the immediate area,▪ Damage to private and public facilities, such as cemeteries and residences.▪ Colonies within 1/2 mile of private land/National Grassland boundaries where encroachment onto neighboring lands is demonstrated. Standard	Chapter 1, H-1 (revised). 1. Limit the use of rodenticides (grain baits) for reducing prairie dog populations to the following situations: <ul style="list-style-type: none">▪ Public health and safety risks occur in the immediate area,▪ Damage to private and public facilities, such as cemeteries and residences.▪ Within ¼ mile of the boundary with neighboring private lands when prairie dog colonies are expanding on to neighboring private lands where they are not wanted.▪ Rodenticide may be applied on no more than 5% of the existing active colony acreage, provided that active colony acreage is the same or higher than in the previous year.▪ Rodenticide may not be applied anywhere on TBNG until there are 10,000 acres of active colonies within MA 3.63. Standard	Chapter 1, H-1 (revised). 1. Limit the use of rodenticides (grain baits) for reducing prairie dog populations to the following situations: <ul style="list-style-type: none">▪ Public health and safety risks occur in the immediate area,▪ Damage to private and public facilities, such as cemeteries and residences.▪ On prairie dog colonies outside of MA 3.63 that are expanding on to neighboring private lands where they are not wanted.▪ Colonies outside Categories 1, 2, 3, and 4 (as identified in strategy, LRMP App. #) if the Forest Service determines they are not needed for habitat for prairie dogs, black-footed ferrets or other associated species. Standard
#3	Chapter 1, H-2. Consult state-wide prairie dog conservation strategies for additional guidance on the appropriate response to complaints of unwanted prairie dog colonization on adjoining agricultural lands (private, state, and tribal lands). Guideline	Chapter 1, H-2 (revised). In consultation with the Wyoming Game and Fish Department, determine the appropriate response to complaints of unwanted colonization on adjoining private and state lands. A spectrum of management tools will be considered based on site-specific evaluations. Guideline	No Change	Chapter 1, H-2 (revised). In Consultation with the Wyoming Game and Fish Department, determine the appropriate response to complaints of unwanted colonization on adjoining private and state lands. A spectrum of management tools will be considered based on site-specific evaluations. Guideline	Chapter 1, H-2 (revised). In Consultation with the Wyoming Game and Fish Department, determine the appropriate response to complaints of unwanted colonization on adjoining private and state lands. A spectrum of management tools will be considered based on site-specific evaluations. Guideline
