

Attention Hikers:

A Hikers accessing Carmen from the McKenzie River Trail will have to DETOUR around the reservoir (*0.5 mile*) to reach the Waterfall Loop Trail.

B Hikers accessing Carmen from the Waterfall Loop Trail – originating from Koosah Falls or Ice Cap Campground and points north – will have to DETOUR around the reservoir (*about 0.5 mile*) to access the McKenzie River Trail.

The Eugene Water & Electric Board will replace the McKenzie River Bridge at Carmen Reservoir starting August 9, 2010. During this construction project, hikers will have to detour around the bridge. The Carmen boat ramp will remain accessible from the east. The project will be complete in early November 2010.
