

## Wyoming Funding Resources

### **Catalog of Wyoming State Grants**

<http://cowgirl.state.wy.us/grantscat/>

The Catalog of Wyoming State Grant Programs is a starting point for potential grant applicants and provides basic information on representative programs. It is searchable by agency or category.

### **GoWYLD Guide to Wyoming Foundations and Grant & Funding Opportunities**

<http://gowyld.net/wyoming/resources.html>

Provides links to Wyoming-based funding sources.

### **Wyoming Foundations Directory**

<http://www.wycf.org/search.aspx>

The Wyoming Community Foundation houses the Wyoming Foundations Directory in an updated and revised on-line format.

## Sample of Wyoming Funding Sources

### **Homer A. and Mildred S. Scott Foundation\***

<http://www.scottfoundation.org/index.html>

The Foundation's areas of interest for grant-making purposes are relatively broad in scope, for it recognizes that vital communities need economic opportunity, a healthy environment, arts and humanities, a commitment to a common good, leadership, access to knowledge, and enrichment opportunities for our youth. The Foundation also believes that today's youth are the future of the community and that each child should be prepared to successfully enter school.

### **Wyoming Wildlife and Natural Resource Trust\*\***

<http://www.wnrt.state.wy.us/index.htm>

Wildlife and Natural Resource Trust funding is available for a wide variety of projects throughout the state, including natural resource programs of other agencies. Project examples include:

- Projects that improve or maintain existing terrestrial habitat necessary to maintain optimum wildlife populations may include grassland restoration, changes in management, prescribed fire, or treatment of invasive plants;
- Preservation of open space by purchase or acquisition of development rights, contractual obligations, or other means of maintaining open space;
- Improvement and maintenance of aquatic habitats, including wetland creation or enhancement, stream restoration, water management or other methods;
- Acquisition of terrestrial or aquatic habitat when existing habitat is determined crucial/critical, or is present in minimal amounts, and acquisition presents the necessary factor in attaining or preserving desired wildlife or fish population levels; and
- Mitigation of impacts detrimental to wildlife habitat, the environment and the multiple use of renewable natural resources, or mitigation of conflicts and reduction of potential for disease transmission between wildlife and domestic livestock.

### **Wyoming Youth for Natural Resources\*\***

<http://www.wyomingagclassroom.org/awards/grants.htm>

The Wyoming Youth for Natural Resources is a program designed to encourage Wyoming youth to develop imaginative wildlife and natural resources conservation projects that incorporate education, technology, volunteering and service to others. The program is a collaborative effort of the Wyoming Community Foundation and Wyoming Agriculture in the Classroom.
