**Project Purpose/Objectives:** This Volunteer group works on non motorized / Wilderness trails doing trail maintenance.

**Work Performed:** The Ouray Trails Group dedicates thousands of hours annually performing routine maintenance, clearing, and bucking on non motorized and wilderness trails on the Ouray Ranger District. They have maintained and signed numerous trails and have installed, and monitor our registration boxes at our trail heads.

**Benefits:** Because of decreasing FS trails budgets, we are more reliant than ever on our volunteers to help us keep our trails maintained. This group is very dedicated in helping keep these trails open and in good condition. They are also an excellent resource in providing us information on problem areas that need quick attention and also travel management issues and violations.
