

## **Herbicides Approved in the Invasive Plant EIS**

<b>Chemical Name</b>	<b>Selectivity</b>	<b>Sample Trade Name</b>
Chlorsulfuron	broad-leaf	Telar, Glean, Corsair
Clopyralid	broad-leaf	Transline, Stinger
Glyphosate	No	RoundUp, Rodeo, Accord, Aquamaster
Imazapic	some broad-leaf & some grasses	Plateau
Imazapyr	No	Arsenal, Chopper, Stalker, Habitat
Metsulfuron methyl	broad-leaf & woody	Escort
Picloram	broad-leaf & woody	Tordon
Sethoxydim	grasses	Poast
Sulfometuron methyl	No	Oust
Triclopyr	broad-leaf & woody	Garlon, Pathfinder, Remedy

Three of these herbicides have aquatic labels – glyphosate, triclopyr, and imazapyr. The herbicides would be proposed for each treatment area based on the knowledge of experts, information provided in a regional environmental impact statement (*Pacific Northwest Region Invasive Plant Program – Preventing and Managing Invasive Plants* – <http://www.fs.fed.us/r6/invasiveplant-eis/>), and best available science.
