SOUTHWESTERN POWER ADMINISTRATION COMMUNICATION SITE SPECIAL USE AUTHORIZATION (MAG0283) PROJECT

I. DECISION

It is my decision to issue a special use authorization to Southwestern Power Administration for a communication site.

This activity is in Section 20; T6N; R25W of the Mt. Magazine Ranger District. This site is located approximately two miles northeast of Blue Mountain, Arkansas, in Logan County. See the attached map for the location.

This site is within the Mt. Magazine Communication Complex, containing approximately 58 acres on the west end of Mt. Magazine.

Within this complex, Southwestern Power Administration currently has a special use authorization for this communication site. This new special use authorization will replace the existing authorization for their site that expires December 31, 2010. This site is already in place and there will be no changes from the existing special use authorization terms and conditions. This new authorization will begin January 1, 2011 and expire on December 31, 2030.

II. REASONS FOR CATEGORICALLY EXCLUDING THE DECISION

I find the proposed action can be categorically excluded from documentation in an environmental impact statement or environmental assessment because it fits category 31.2 (15), [(36 CFR 220.6(e)(15)] described in Forest Service Handbook id_1909.15-2009-1, April 17, 2009. This category is for “issuance of a new special use authorization for a new term to replace an existing or expired special use authorization when the only changes are administrative, there are not changes to the authorized facilities or increases in the scope or intensity of authorized activities, and the applicant or holder is in full compliance with the terms and conditions of the special use authorization.”

The categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects which may significantly affect the environment. I considered: 1) Federally listed threatened or endangered species or designated critical habitat, species proposed for Federal listing or proposed critical habitat, and Forest Service sensitive

species; 2) floodplains, wetlands, and municipal watersheds; 3) congressionally designated areas, such as wilderness, wilderness study areas, or national recreation areas; 4) inventoried roadless areas; 5) research natural areas; 6) American Indians and Alaska Native religious and cultural sites; and 7) archaeological sites and historic properties or areas.

III. PUBLIC INVOLVEMENT

Scoping for this project began with the mailing of the proposed action to adjacent landowners and interested citizens on August 25, 2010. This list included letters to nine Native American Tribes and the Arkansas Game and Fish Commission. The scoping package contained a description of the proposed action, a map depicting the proposed action, and a comment form. A total of 26 letters were mailed.

A copy of the proposed action letter was posted on the Ozark-St. Francis National Forests website at <http://www.fs.fed.us/oonf/ozark/projects/planning/magproject.html>.

One comment was received as a result of this scoping. This comment was in support of the project and is contained in the project files.

IV. FINDINGS RELATED TO OTHER LAWS AND REGULATIONS

This project is consistent with the objectives of the Revised Land and Resources Management Plan for the Ozark-St. Francis National Forests.

V. ADMINISTRATIVE REVIEW OR APPEAL OPPORTUNITIES

This decision is not subject to appeal pursuant to 36 CFR 215.12(f).

VI. IMPLEMENTATION DATE

This decision may be implemented immediately.

VII. CONTACT PERSON

Further information about this decision can be obtained from Vicki Weindel, NEPA Coordinator, Mt. Magazine Ranger District, P.O. Box 511, Paris, AR 72855; (479) 963-3076; fax (479) 963-8055; e-mail: vweindel@fs.fed.us.
