

**Not R2 SS, But Should Be Considered for other  
Emphasis Species Lists**

**Recommendations and Evaluations**

**Common Name:** Plains Sharp-tailed Grouse

**Scientific Name:** *Tympanuchus phasianellus jamesi*

**Recommendation:** **Not R2 SS, be should be considered for other Emphasis Species Lists**

**Recommendation Rationale:**

Most R2 habitat is in Colorado, in western Douglas County. The FS has little ability to influence the species' conservation. In other places in R2 where they are doing well the populations are not on NFS lands. This should be considered for Emphasis Species status by those NFS units on which it occurs.
