

Not R2 Sensitive Species and Not of Concern

Recommendations and Evaluations

Common Name: Canvasback

Scientific Name: *Aythya valisineria*

Recommendation: Not R2 Sensitive Species and Not of Concern

Recommendation Rationale:

Most of their breeding habitat is outside R2. In addition, within R2 most breeding habitat is not on NFS lands. Agency management actions in recent past rarely degrade wetland quality or quantity and numerous wetland protective measures exist in all unit's FLMPs.
