

## Not R2 Sensitive Species and Not of Concern

### Recommendations and Evaluations

**Common Name:** Common Snipe

**Scientific Name:** *Gallinago gallinago*

**Recommendation:** Not R2 Sensitive Species and Not of Concern

### Recommendation Rationale:

Appears to be abundant and widespread. Habitat and population trends appear to be stable, and no significant threat identified on NFS lands. Reasonable confidence that adequate population monitoring data exists. Significant populations and habitat are on private land as well.
