

## Not R2 Sensitive Species and Not of Concern

### Recommendations and Evaluations

**Common Name:** Forster's Tern

**Scientific Name:** *Sterna forsteri*

**Recommendation:** Not R2 Sensitive Species and Not of Concern

### Recommendation Rationale:

No sufficient demonstration of concern for the status and conservation of this species in R2. Population trend data is not clear, but most nesting habitat not on NFS lands and it appears that less than 1% of global population occurs in R2.
