Setting & General Description (include description of the site, natural resources/features, scenic values, recreational attractions, amenities, current/projected visitation, etc.):

The Alder Guard Station sits at the confluence of the 3 forks of alder creek in the shade of large blue spruce trees. The cabin, barn, corral, and storage buildings of the complex were once known as the Alder Guard Station and housed the first district ranger going back to 1907. The first ranger, John Million lived here with his family and worked out of here. The Alder Guard Station was absorbed in 1970 into the Del Norte district and the cabin reverted to crew quarters. This facility is located 2 miles north of U.S. Highway 160 and the town of South Fork and sits at the bottom of a secluded valley. There is an 18 hole golf course adjacent to the facility and a trailhead leading to the public lands right behind the facility. The area offers seclusion, solitude, access to trails (foot, horse, bicycle, motorbike, and ATV), and access to 4x4 jeep routes. In winter the road is a groomed snowmobile route and cross-country skiing opportunities abound. Amenities include electric power, local telephone, hot/cold running water, indoor toilet/shower, picnic tables, bluegrass lawn, and a large campfire pit. There is fishing in the creek and wildlife viewing opportunities around the facility. It is a great location to go into town, or to get away from the urban scene depending on which way you want to go. There is potential here for making this facility a horse friendly situation with the corrals and nearby meadows for grazing.

NRHP Eligibility (Cabins/Structures): YES Archeologist's concurrence: X Y ___N
Comments: **Alder Ranger Station (5RN427) is officially eligible to the National Register of Historic Places (NRHP).** State Historic Preservation Officer (SHPO) consultation is needed prior to any alterations, removals, changes in landscaping, or any other action affecting the integrity of any feature of the site (dwelling, administrative building, or barn) will also need SHPO consultation. Replacement of any element (such as roofs, windows, or porches) would generally have to be in-kind unless specifically approved by the SHPO.

2. CURRENT AND PROJECTED REVENUES and ANNUAL OPERATION & MAINTENANCE COSTS

Currently, there are no significant revenues associated with this facility. It typically serves as an administrative site and backup bunk-housing for seasonal employees, though this is rare. Projected revenues and occupancy are based on a comparison of our other rental cabins on the District, scheduled improvements to the facility and future marketability, close proximity to a paved highway and located at an elevation that provides year-round access.

See Attachment A: Revenue/Cost projection spreadsheet.

3. COST OF BACKLOG WORK NEEDS:

Roads/Parking Areas:	\$ <u>1,000</u>
Building/Facilities:	\$ <u>19,500</u>
Water/Waste water Systems:	\$ _
Associated Trails:	\$ _
Signs:	\$ _
Other (list):	\$ _
Total:	\$ <u>20,500</u>

4. FEE COLLECTION METHOD AND ESTIMATED FEE COLLECTION COSTS

Method: NRRS Reservations (Required)

Costs: \$0, there are no costs to the Forest for reservations under NRRS

Note: No collection costs are incurred for sites under the National Recreation Reservation Service (NRRS).

5. FEE DETERMINATION PROCESS SUMMARY

Fair Market Value Comparison (compare similar fees at other FS, state, federal, or private recreation sites in the area with similar facilities & services):

Facility type(s): Cabins, Motel, Ranch

Number of facilities compared: 13

Proximity to project area: within 200 miles

Price range: \$55 - \$450

Selected fee and method: \$50.00 nightly

Based on a Fair Market Value comparison of government and privately owned cabin rental operations, the Rio Grande National Forest proposes the following rates for its 8 new cabin rental opportunities and 3 existing cabin rentals (Brewery, Carnero, Ellwood)

Operator	Location	Amenities	Proposed Nightly Fee
Brewery Creek Guard Station	vic. Bonanza, CO	Rustic, Propane Appliances/Hand Pumped Water	\$50 (Proposed) \$35 (Current)
Carnero Guard Station	vic. Carnero Pass	Rustic, Propane Appliances/Hand Pumped Water	\$50 (Proposed) \$35 (Current)
Ellwood Cabin	vic. Summitville, CO	Rustic, Propane Lights/Wood Stove/No Water	\$50 (Proposed) \$20 (Current)
Upper Crossing Guard Station	vic. Saguache, CO	Standard Municipal	\$75
Stone Cellar Guard Station	vic. Saguache Park	Rustic, Propane Appliances/Hand Pumped Water	\$50
Saguache Bunkhouse	Saguache, CO	Standard Municipal	\$50
Alder Creek Guard Station	South Fork, CO	Standard Municipal	\$50
Fitton Cabin	vic. Bennett Peak	Rustic, Wood Stove	\$50
River Springs Guard Station	vic. Antonito, CO	Standard Municipal	\$75
Platoro Cabin #1	Platoro, CO	Standard Municipal	\$75
Platoro Cabin #2	Platoro, CO	Standard Municipal	\$75

Special economic considerations were made in developing this price structure relative to fair market value, impacts to private operators (competition, capacity, demand, and market segmentation) and impact to local Forest visitors, especially as it relates to the depressed economy of the San Luis Valley. Although the market could easily bear higher rental rates, proposed rental prices have intentionally been set within reason for Valley residents.

Comments: A Fair Market Value comparison of numerous cabin rental operators was conducted in order to determine appropriate fees for current and proposed rental cabins on the Rio Grande National Forest. The only government agency that offers rental cabins within our market segment area (within 200 miles of the Forest) is the U.S. Forest Service. Cabins with little or no amenities (i.e. no drinking water) rent at an average of \$50/night. Cabins with significant amenities (i.e. electricity) rent for as much as \$150/night. In the private sector, there are relatively few cabin rental operators located in the San Luis Valley; the exception being South Fork. Private rental cabins differ significantly from Forest Service cabins in several ways, most notably that they tend to be resort-like with a number of cabins located within that private property and are almost all located along major highways and offer most standard amenities to highway travelers and vacationers. By comparison, Forest Service Guard Stations tend to be individual cabins located in remote areas of the National Forest well away from many standard services. The following private businesses offer cabin rentals within the market segment area:

6. PLANNED USE OF FEES RETURNED TO SITE (list by priority; include daily O&M if appropriate; add to list if appropriate)

1. ADA-accessibility project – ramp to front and rear entrance.
