Dear Interested Public:

In an effort to keep you informed of the changes to the Gila National Forest Land Management Plan, we are enclosing a copy of Amendment #6 with accompanying Decision Notice. This amendment reflects the inclusion of construction and maintenance of five developed recreation sites on the Reserve and Glenwood Ranger District.

Thank you for your interest in the management of the Gila National Forest.

Sincerely,

for 
MAYNARD T. ROST
Forest Supervisor

DECISION MEMORANDUM

VENUS PROJECT
RESERVE AND GLENWOOD RANGER DISTRICTS
CATRON COUNTY, NEW MEXICO

It is my decision to amend the Gila National Forest Land Management Plan for the inclusion of the construction and maintenance of five developed recreation sites. Specifically, Table 4 of Page 13 of the Land Management Plan will be amended to include the following projects:

<u>Forest Priority</u>	<u>Site</u>	<u>Capacity</u>	<u>Acres</u>
5	Apache Creek CG	200	25
6	Walnut Grove PG	40	3
7	Glenwood CG	200	25
8	Pine Lawn PG	80	12
9	Visitor Center	20	2

The recreation development projects listed in the Land Management Plan have been prioritized and scheduled for funding and accomplishments through expected appropriated funds. The additional projects (priority 5-9) will be funded by specific appropriation from Congress or contributed funds and will not impact the schedule for accomplishment of priority 1 through 4.

The economic stability of communities within Catron County have historically been based on commodity outputs (lumber and beef). Of late, this stability has been threatened. The intent of this decision is to provide an avenue for the residents of Catron County to diversify their economy and become less dependent on a commodity based future. Amending the Land Management Plan is consistent with NEPA and Forest Service Policy.

The proposed projects were published in the Catron County Courier. Two meetings were held where scoping and alternative generation was accomplished. A wide range of local publics were involved in the proposals: Reserve Chamber of Commerce, Reserve Tourist Bureau, Reserve Water Recreation Committee, Glenwood Chamber of Commerce, Soil Conservation Commission, Village Government, Catron County Commissioners, Reserve Village Government, S.W.N.M. R.C. & D., and numerous local individuals who could be directly affected by the actions or have an interest in the Catron County Economic situations.

This proposed action falls within category 1b.3(a1 & 2) (Planning and Funding Activities) and no extraordinary circumstances exist that might cause the action to have significant effects; therefore, the action is categorically excluded from documentation in an environmental impact statement or an environmental assessment (FSH 1909.15, section 26.2).

Implementatin of this Decision may occur seven days after publishing of this Notice per 36 CFR 217.5.

This decision is subject to appeal in accordance with 36 CFR 217. A Notice of Appeal must be in writing and clearly state that it is a Notice of Appeal being filed pursuant to 36 CFR 217. Appeals must be fully consistent with 36 CFR 217.9, "Content of Notice of Appeal" and must be filed with David F. Jolly, Regional Forester, USDA Forest Service, Southwestern Region, 517 Gold Avenue S.W., Albuquerque, New Mexico 87102, and simultaneously sent to Maynard T. Rost, Forest Supervisor, USDA Forest Service, Gila National Forest, 2610 North Silver Street, Silver City, New Mexico 88061, within 45 days of the date of publication of the legal notice of decision in the Silver City Daily Press.

For further information contact Mike Gardner, Box 170, Reserve, New Mexico 87830, at 505/533-6231.
