

ASHLEY NATIONAL FOREST
LAND AND RESOURCE MANAGEMENT PLAN

AMENDMENT NO. 13

Effective 6/10/98

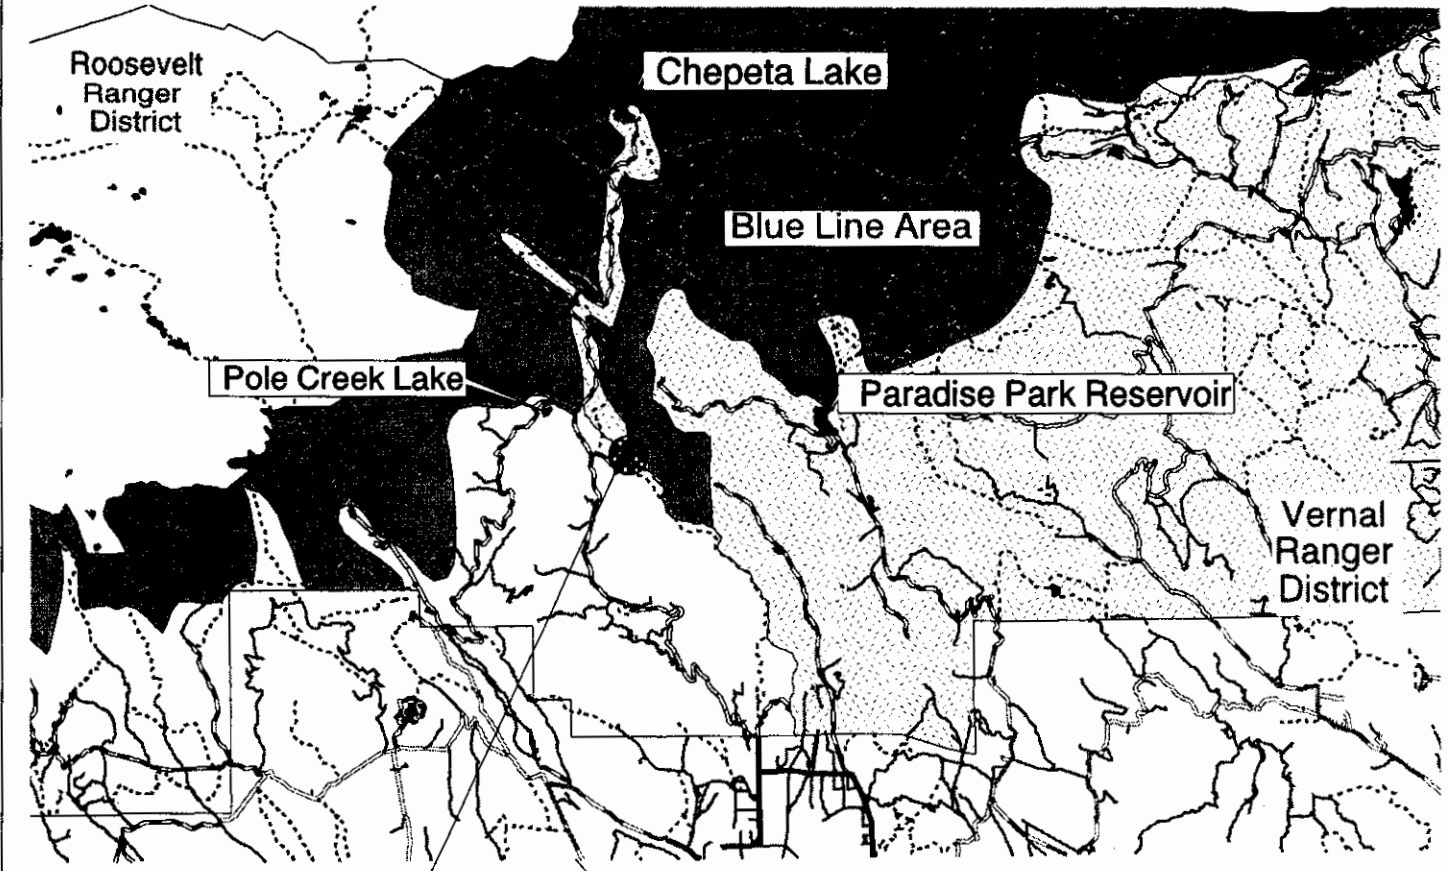

POSTING NOTICE: Update Forest Plan map delineating the "area remaining unroaded and with no commercial timber harvest at the end of first planning period" (aka 'the blue line').

Explanation:

The analysis to substantiate this amendment is documented in the Environmental Assessment for the Cliffside Timber Project.

This amendment is a non-significant amendment to the Ashley's Land and Resource Management Plan. It relocates the blue line to exclude the leave strips and past harvest activities associated with the Cliffside timber sales. Approximately 122.95 acres are removed from blue line delineation.

**Amendment #13
to the
Ashley National Forest
Land and Resource Management Plan
June 1998**

**Cliffside
Harvest
Units**
