<b>Sensitive Species Recommendation</b> (Please check 1 box below)					
<input checked="" type="checkbox"/>	<b>R2 Sensitive Species (SS)</b>	<b>Not R2 SS, but should be considered for other Emphasis Species Lists</b>			
<input type="checkbox"/>	<b>Not R2 SS and Not of Concern Now</b>	<b>Insufficient Information Available to make a recommendation</b>			
<b>Recommendation Rationale</b>					
<p><b>A circumboreal species (G5), in R2 it occurs only on the Shoshone NF. The species is S2 in WY and is on the Region 1 sensitive species list. Population trend is not known. This species occurs in peatlands, which have been lost in the past and are vulnerable to hydrological change. This species merits sensitive status.</b></p>
