Sensitive Species Recommendation (Please check 1 box below)					
	R2 Sensitive Species (SS)	<input checked="" type="checkbox"/>	Not R2 SS, but should be considered for other Emphasis Species Lists		
	Not R2 SS and Not of Concern Now		Insufficient Information Available to make a recommendation		
Recommendation Rationale					
<p>Species is at the southern edge of its periphery; it is a disjunct from populations in widespread northern regions. Globally secure. Occupies rugged and inaccessible alpine habitat in primarily Wilderness areas that are secure from development and, therefore has low vulnerability to threats.</p> <p>Due to four known occurrences in Region Two, this species should be considered for Species of Local Concern on the Bighorn and Shoshone National Forests.</p>					

Name/Title	Kevin Atchley, Range Management Specialist Benjamin Madsen, Botanist	Date	October 1, 2002
