Sensitive Species Recommendation (Please check 1 box below)					
<input type="checkbox"/> R2 Sensitive Species (SS)	<input checked="" type="checkbox"/>	Not R2 SS, but should be considered for other Emphasis Species Lists			
<input type="checkbox"/> Not R2 SS and Not of Concern Now	<input type="checkbox"/>	Insufficient Information Available to make a recommendation			
Recommendation Rationale					
<p>A circumboreal arctic species, the one occurrence in WY on the Shoshone NF is the only known occurrence in the contiguous U.S. The area where this population occurs has been designated a Botanical Special Interest Area. Based on monitoring over the past 10 years, the population appears to be stable. The Shoshone NF should consider this species for other Emphasis Species lists.</p>					

Name/Title	Nancy Warren	Date	March 17, 2003
