	<b>CO Status</b>	<b>WY Status</b>	<b>SD Status</b>	<b>NE Status</b>	<b>KS Status</b>	
<b>IUCN</b>	<b>PIF – Area Importance</b>		<b>PIF – Population Trend</b>			
<b>FS Experts assigned Species Evaluation</b>			<b>Non-NFS Experts assigned Species Evaluations</b>			
			Joy Handley, Bonnie Heidel, Scott Laursen WYNDD			
<b>Sensitive Species Recommendation</b> (Please check 1 box below)						
<input type="checkbox"/>	<b>R2 Sensitive Species (SS)</b>	<input checked="" type="checkbox"/>	<b>Not R2 SS, but should be considered for other Emphasis Species Lists</b>			
<input type="checkbox"/>	<b>Not R2 SS and Not of Concern Now</b>		<b>Insufficient Information Available to make a recommendation</b>			
<b>Recommendation Rationale</b>						
<p><b>-endemic to Front Range from southeastern WY to northern NM outside R2: core is in CO where it's ranked S3/S4 (no specific data from CO on location numbers or population size)</b></p> <p><b>-limited distribution in WY (1 population of 5000-10000 plants)</b></p> <p><b>Conclusion: this species doesn't warrant sensitive status but should be considered for other emphasis lists by individual forests.</b></p>
