<b>Sensitive Species Recommendation</b> (Please check 1 box below)					
<input type="checkbox"/>	R2 Sensitive Species (SS)	<input checked="" type="checkbox"/> Not R2 SS, but should be considered for other Emphasis Species Lists			
<input type="checkbox"/>	Not R2 SS and Not of Concern Now	<input type="checkbox"/> Insufficient Information Available to make a recommendation			
<b>Recommendation Rationale</b>					
Regional endemic (G5) of western MT and western WY (S2). Occurs in alpine fellfields, talus and rocky places. Six of 8 occurrences are on the Shoshone NF. All or part of 5 populations occur within wilderness areas or RNAs. Habitats and populations are presumed to be stable (low confidence) due to lack of threats and rugged habitat. Because of its rarity in R2, the Shoshone NF should consider this species for other Emphasis Species lists.					

<b>Name/Title</b>	Nancy Warren	<b>Date</b>	March 17, 2003
