Sensitive Species Recommendation (Please check 1 box below)					
<input type="checkbox"/> R2 Sensitive Species (SS)		<input checked="" type="checkbox"/> Not R2 SS, but should be considered for other Emphasis Species Lists			
<input type="checkbox"/> Not R2 SS and Not of Concern Now			<input type="checkbox"/> Insufficient Information Available to make a recommendation		
Recommendation Rationale					
<p>Rare throughout its range with exception of WY and Nevada (not ranked). This species is found ON SCREE SLOPES AND SANDSTONE/LIMESTONE TALUS in high elevation cushion plant type plant communities in the alpine. S1 in CO and S3 in WY. Found on the Grand Mesa, Uncompahgre & Gunnison NF; Pike-San Isabel NF; White River NF and the Shoshone NF. Outside of R2 found in Nevada, Utah, Gros Ventre, Wind River, and WY ranges, British Columbia and Alberta. Placed in Emphasis Species status for Forests with this plant species because of its low population numbers and low threats due to habitat and habitat inaccessibility/remoteness of habitat.</p>					
John Proctor and Gay Austin
