

**Not R2 SS, But Should Be Considered for other
Emphasis Species Lists**

Recommendations and Evaluations

Common Name: tall fleabane

Scientific Name: *Erigeron elatior*

Recommendation: **Not R2 SS, be should be considered for other Emphasis Species Lists**

Recommendation Rationale:

Widespread across northern North American and northern Asia. Occurs in patchy habitats in alpine areas, cliff faces, and talus slopes. More populations than reported probably exist. Emphasis status is appropriate.
