Sensitive Species Recommendation (Please check 1 box below)					
	R2 Sensitive Species (SS)	<input checked="" type="checkbox"/>	Not R2 SS, but should be considered for other Emphasis Species Lists		
	Not R2 SS and Not of Concern Now		Insufficient Information Available to make a recommendation		
Recommendation Rationale					
<p>Widely distributed outside of R2, but its range in CO and WY is considered disjunct. Appears to occur in protected sites, with no apparent threats from management activities. Abundance is greater than previously thought. Deserves to be considered as an Emphasis Species due to its limited distribution and abundance in R2.</p>					

Name/Title	Nancy Warren & Jeff Redders	Date	Oct. 1, 2002
