Sensitive Species Recommendation (Please check 1 box below)					
<input type="checkbox"/>	R2 Sensitive Species (SS)	<input checked="" type="checkbox"/>	Not R2 SS, but should be considered for other Emphasis Species Lists		
<input type="checkbox"/>	Not R2 SS and Not of Concern Now	<input type="checkbox"/>	Insufficient Information Available to make a recommendation		
Recommendation Rationale					
<p>Known from the southern Great Plains, this species reaches its northern limits in R2. Habitat is described as low areas in sandy ravines and sand bars, in sandsage prairie. Appears to be relatively rare in the region but well distributed outside the region. Species may require disturbance and has been recorded on roadcuts in sandsage prairie. Recommended for consideration as an emphasis species on the PSICC.</p>					

Name/Title	Nancy Warren & Jeff Redders	Date	Oct. 1, 2002
