

## Not R2 Sensitive Species and Not of Concern

### Recommendations and Evaluations

**Common Name:** woollycup buckwheat

**Scientific Name:** *Eriogonum lachnogynum*

**Recommendation:** Not R2 Sensitive Species and Not of Concern

#### Recommendation Rationale:

Within R2, known only from se CO and sw KS. Species reaches the northern and eastern limits of its range in R2. Distribution through OK, TX, NM and AZ. Species has been collected frequently and populations may be rather large. In Cimarron NG, this plant is relatively secure. In CO, common on gypsum soils in the lower Arkansas Valley and San Luis Valley. The majority of species preferred habitat is stable. Species is found in rocky shortgrass prairie and on rocky breaks on sandstone, limestone or clay soils. Species shows evidence of being able to recolonize abandoned cropland.
