	R2 Sensitive Species (SS)		Not R2 SS, but should be considered for other Emphasis Species Lists			
<input checked="" type="checkbox"/>	Not R2 SS and Not of Concern Now		Insufficient Information Available to make a recommendation			
Recommendation Rationale						
<p>An alpine tundra plant occurring on windy boulder slopes, fellfields, and gravel beds. Distribution includes CO, s WY, UT and n NM. Relatively common and not particularly vulnerable to grazing and recreation impacts. Although it has a limited distribution, it is probably underreported. No downward trends or threats were identified. S1 rating in WY due to being at the northern limit of its range.</p>						

Name/Title	Nancy Warren & Jeff Redders	Date	Oct. 4, 2002
