 Route Marker

Distinctive and Horizontal Route Markers

Distinctive route markers typically consist of two digits and they identify significant, highly traveled roads through the forest passable by passenger cars during the normal season of use.

Horizontal route markers typically consist of four digits with the first two digits identifying the distinctive route that is branched off of. They identify all other forest roads passable by standard passenger cars during the normal season of use.

These are all considered higher level roads.

Vertical Route Markers

Vertical route markers identify roads that are not maintained for travel in standard passenger cars. These markers typically identify the higher level road they branch off of with the higher level road number displayed horizontally above the vertical number.

LEAVING A GOOD IMPRESSION

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
