

Rosemont Copper Project
Cooperating Agency
Coordination Meeting

07/10/2009
11:00 AM to 12:00 PM
Federal Building
300 West Congress
Tucson, Arizona

Meeting Notes

Request for Review

Discussion:

- ⇒ Reviewed Arizona Geological Survey commitments under the MOU
- ⇒ The Forest Service met with representatives of the Arizona Geological Survey to request specialist review of a draft geological report discussing blasting implications to nearby caves and seismic activity studies. The Forest Service Interdisciplinary Team Leader provided information about the parameters of the needed review and copies of the documents to be reviewed.
- ⇒ Review requested for:
 - Geologic Hazard Report
 - Dry Stack Tailings Design
 - Baseline Geochemical Report
 - Chapter 3 Affected Environment (Geological Resources)
 - Chapter 3 discussion of mining history and mineral exploration

Action items: Arizona Geological Survey agreed to the following review deadlines:

1. Bounds of analysis review to be completed by July 31, 2009
2. Technical report review due dates to be established with Forest Service Interdisciplinary Team Leader when each report is available for review
3. Review dates for Chapter 3 materials to be established with Forest Service Interdisciplinary Team Leader when available
