Other

Kathy Arnold – Rosemont
Ed Beck - TEP

Topics Discussed:

- TEP (Ed Beck) presentation on powerline siting (TEP website contains maps, schedule, etc.)
- Rosemont (Kathy Arnold) presentation on partial pit backfill (Teresa Ann has copy of Kathy's powerpoint presentation)
- Brief Jeanine on Scholefield alternative modifications, pit backfill concept, and cooperating agency-led alternative.

Decisions Made:

- While we await technical reports, pit backfill will be added to the mitigation table, since it could apply to more than one alternative.
- Cooperating agency-led alternative to allow natural erosion over geologic time will be documented as considered but dropped from full analysis. Concerns with uncertainty, exposed tailings to wind, waste is downslope from the pit.

Action Items/Assignments:

- Mindee – Brief Rosemont on status of alternatives.
