

Invasive Plant Mapping & Identification Workshop

This **FREE** workshop will teach participants how to map invasive plants with a GPS unit, according to the DNR & Midwest Invasive Species Information Network (MISIN) protocols. Invasive plant species critical for early detection will be identified as well.

Agenda

- 1:00** Meet at Baraga State Park Picnic Shelter.
- 1:30-2:00** Introduction to using a GPS unit
- 2:15-2:45** Invasive mapping protocols.
- 3:00-4:00** Site visit to Keweenaw Bay Indian Commission property. Identify plants & practice using GPS units.

Date: Thursday, May 19, 2011

Time: 1:00—4:00 p.m.

Location: Baraga State Park, 1300 US-41 South, Baraga, MI

Registration is required by May 15!!!

What to Bring

- GPS Unit (if available)
- Water and/or Snacks
- Comfortable Shoes
- Weather-appropriate clothing
