

Not R2 Sensitive Species and Not of Concern

Recommendations and Evaluations

Common Name: Dark Blue

Scientific Name: *Lycaeides idas sublivens*

Recommendation: Not R2 Sensitive Species and Not of Concern

Recommendation Rationale:

Known only from San Juan Mountains although distributed over a range of elevations and habits. It has limited distribution in R2, insufficient information on population trends, and is susceptible to sheep and livestock grazing. However, not limited in its host plants and inhabits a wide range of habitats.
