# Superior National Forest - Iron Lake

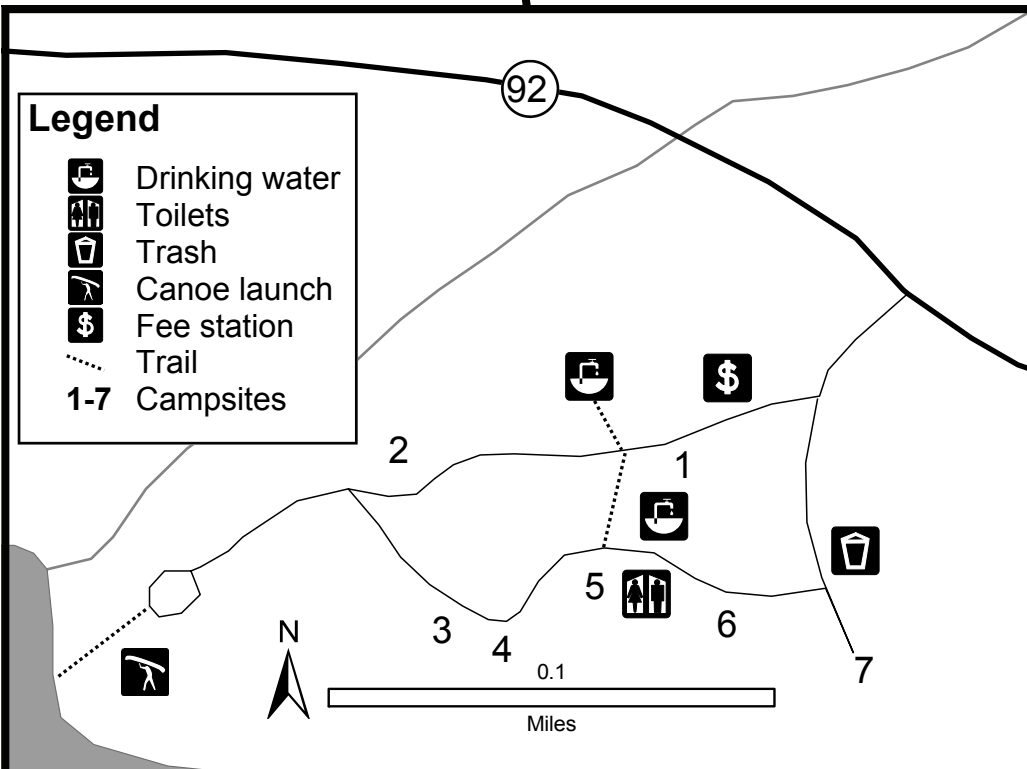

## Description

Iron Lake is a unique campground due to its remote location and small size. It is in an area burned over in the 2007 Ham Lake fire, and visitors can see post fire ecology including uncommon black-backed woodpeckers. Please stay on trails and roads; burned areas have hazards and forest renewal can be fragile.

Fishing for walleye and northern is good. Blueberries are also abundant in the area.

There are lots of canoeing opportunities. If you enter the Boundary Waters Canoe Area Wilderness, you will need to have a permit (self-issued for day use) and follow wilderness regulations including group size. See the back of the permit for details.

Maps on this flyer are not for navigation.

### Bears!

Be bear aware while camping. Close and fasten campground waste containers. Lock food securely in vehicles - bears have been known to break into pick-up toppers and RV screen doors. Never burn food waste or packaging, and never store food in tents.
