

Mammals

Please do not disturb or harass wildlife!

Remember, when you venture into the Great Outdoors, treat the homes and backyard of wildlife with respect.

Key to species occurrence

Po = Possibly occurs on the Forest.

This category includes species which are known to exist in close proximity to the Forest boundary, or which may accidentally migrate off a normal route onto the Forest.

Pr = Probably occurs on the Forest

This category includes species which should occur on the Forest as indicated by species distribution data, but which have not been verified by actual sightings or other evidence.

K = Known to exist on the Forest

This category includes all species which have actually been verified as existing on the Forest.
