

ATTENTION

The Valhalla Recreation Area and the Valhalla Trail 33/13 (see the map below) into this area will continue to be temporarily closed due to ongoing trail and parking lot reconstruction. The Valhalla Trail (Trail 33/13) that accesses the main parking area to the east is still barricaded to allow construction work to be done safely and according to schedule. The Forest Service has re-opened the west side of the Valhalla Trail (31/35) through the Sunbowl area to the Bayfield Trail (Trail 40). The temporary re-route for ATV traffic is shown with red arrows on the map below. Please observe the closures and follow the signs for the re-routes. If you have any questions regarding the Valhalla ARRA Project, please contact the Washburn Ranger District at (715) 373-2667. Thank you for your patience during the short construction projects that will improve the safety of the trails.
