

**Annual Operating Instructions  
2016  
Scipio Allotment  
Fillmore RD, Fishlake NF**

This AOI is made part of your grazing permit consistent with Part 1, item 3 and Part 2, Item 8(a). Situations may develop during the grazing season which requires changes to these instructions. If this becomes necessary, or if you cannot comply with some or part of these instructions, contact the District Ranger and obtain approval before initiating changes or deviating from these instructions. Failure to follow these instructions is a violation of your permit.

Permittee	Ear Tag Color & #'s	Permitted*			Authorized**		
		Number	Class	Season	Number	Class	Season
Marden Stone	Blue 188-197	10	Cow/calf	6/16-9/30	10	Cow/calf	6/16-9/30
Allen Gurney	Blue 1-179	185	Cow/calf	6/16-9/30	185	Cow/calf	6/16-9/30

\*Permitted use is the livestock numbers and season of use listed on your grazing permit.  
\*\*Authorized use is the number of livestock and season of use you are authorized for in the current grazing season and reflects stocking and/or season of use adjustments for the given year.

**Non-use:**

Please be aware that nonuse in excess of 10% of your permitted numbers must be requested at least 30 days before the "on" date. Nonuse for personal convenience may be approved on a year-to-year basis for a maximum of three consecutive years and not more than four years in any 10-year period. Longer periods of nonuse for range protection will only be approved under a written agreement.

Non-use requested: None

**LIVESTOCK MANAGEMENT**

2016		Grazing Schedule	
Unit (Pasture)	Tentative Dates*	Days/Unit	Number of Livestock
Loafers Canyon Unit-Marden Stone	Based on proper-use	Variable	10
Spring Branch Canyon (Spring Range)	30 days	Variable	180
North ½ of North Spring Range	30 - 45 days	Variable	180
South ½ of North Spring Range	30 - 45 days	Variable	180
Rock Canyon-Robbins Valley	30 days	Variable	Up to 185

\* Grazing will begin when the perennial grasses are in the flower head.

When allowable use levels are met in the scheduled pasture, cattle will be required to be moved to another area of the pasture, moved to another pasture, or removed from the Forest.

Type of rotation: Deferred grazing season

All livestock must be removed from the Forest by the permitted off date listed above.

Previous year’s grazing results: Grazing utilization was light over most of the allotment last year. Thank you for moving cattle into areas that are not readily used by livestock.

Notice of Non-compliance/Suspension Actions: NONE

Additional instructions: Loafers Canyon will be grazed by 10 head of cattle until proper-use is reached. Please pay special attention to the area around Maple Grove Camp Ground and Ivie Creek.

**UTILIZATION STANDARDS & MONITORING**

**Maximum Allowable Forage Use Criteria**

<b>Vegetation Type</b>	<b>Stubble Height/Use</b>	<b>Comments</b>
Riparian Hydric Species	4"	Triggers the time to move livestock between units or off the allotment.
Riparian Emphasis Management Areas	6"	Triggers the time to move livestock between units or off the allotment.
Non-hydric sod forming grass species in riparian areas	1.5"	Primarily Kentucky bluegrass-Triggers the time to move livestock between units or off the allotment.
Wheatgrass seedings	60%	Management option to exceed 60% use to maintain healthy seedings.
Riparian/upland browse: Sprouts and young-aged plants	≤40%	# of current year’s available twigs removed.
Riparian/upland mature browse	≤50%	# of current year’s available twigs removed.
Upland grass/forb	40-60% of key species; varies by grazing system and desired condition	% of current year’s growth.
Riparian ground cover	Maintain ground cover of at least 70% within riparian areas.	

You are responsible to monitor your livestock and comply with the listed utilization standards and to move livestock prior to **any** of the above standards being exceeded.

Compliance monitoring inspections will be conducted by Forest Service personnel throughout the grazing season in key areas across the allotment. You are invited and it is recommended that you participate in these inspections.

Key areas are Robbins Lake, the Pioneer flat and the north end of the fire area.

Exceeding the utilization standards may be considered as non-compliance with your Term Grazing Permit and may be subject to suspension or cancellation of the permit.

**BILLING**

Your annual grazing bill must be paid and notification received in our office prior to turning livestock onto the National Forest. It may take 10 days or more from the time you mail your payment until we receive payment notification so plan accordingly.

**RANGE IMPROVEMENTS**

You are responsible for maintaining the range improvements assigned to you in Part 3 of your Term Grazing Permit. All improvements are to be maintained to standard prior to livestock entering a pasture, even in the event of non-use. Standards are found in your Term Grazing Permit or at <http://www.fs.fed.us/r4/fishlake/resources/rangemgt.shtml> . Livestock entry onto the Forest will be delayed if improvements are not maintained to acceptable standards.

<b>Fences</b>	<b>Length</b>
Pharos Ridge	1.3 miles
Robins Valley Fence	7.5 miles
Lower Pharos Ridge	.5 miles
Horse Pasture Fence	.8 miles
North Grove Boundary Fence	.5 miles

<b>Water Improvements</b>	<b>Condition</b>
Libbs Spring Trough	
Pharos Trough 1	
Pharos Trough 2	
Horse Pasture reservoir	
Upper Pioneer Reservoir	
Loafer Spring Trough	
Cutler Spring Trough	
Cedar Spring Trough	
Haw Spring Trough	
North Spring Trough	
Dry Canyon Trough	
South Rock Canyon Reservoir	

Scheduled reconstruction for upcoming season: fence on top of Pharo’s canyon

You must obtain prior written approval from the District Ranger before constructing/installing structural range improvements or using or applying any pesticide/herbicide except for personal use of insect repellent.

Any improvement, which is no longer functional or no longer needed, will be removed from the allotment by the permittee. The removal of any improvement must have prior approval by the District Ranger.

Failure to maintain your assigned range improvements may be considered as non-compliance with your Term Grazing Permit and may be subject to suspension or cancellation of your permit.

**GENERAL INSTRUCTIONS**

You or the association will furnish sufficient riders or herders for proper distribution, protection and management of livestock on the allotment as required by the Allotment Management Plan (AMP) and/or Annual Operating Instructions (AOI).

**You are required to submit actual use information for the allotment. Please complete the enclosed form and return it to the district office within two weeks of removal of livestock from the Forest.**

Salt and other dietary supplements are a distribution tool, and as such, should not be placed within ¼ mile of riparian areas, water troughs and ponds; within 200 ft. of designated roads, trails, trail heads or camping spots which have frequent use. Avoid salting in or near tree plantations or regenerating aspen stands. Exceptions to these standards must have prior approval.

Salt will be removed from areas where feed has been used to standards.

The Fishlake National Forest Travel Plan must be followed while managing livestock unless approved in advance and in writing by the District Ranger.

Previously grazed units must have all livestock removed from them.

All livestock feed or straw brought onto the Forest must be certified weed free per Regional Forester's Order #04-00-058, dated March 26, 1996 (<http://www.fs.fed.us/r4/fishlake/resources/rangemgt.shtml>).

Dead livestock shall be moved at least ¼ mile from roads, water sources, and camping spots, which have evidence of frequent use.

All garbage resulting from activities associated with this permit shall be removed from National Forest lands and disposed of properly.
