

CHIPPEWA NATIONAL FOREST LAND AND RESOURCE MANAGEMENT PLAN

Amendment 2 **Change to North Winnie SPNM Boundary** **6/04/2009**

The CNF Land and Resource Management Plan (Forest Plan) has been amended as follows:

The boundary of the North Winnie Semi-primitive Non-motorized Area has been extended south of the current boundary to Forest Road 2171. As a result, the size of the area increases by 1,860 acres.

This non-significant Forest Plan amendment was part of the North Winnie SPNM Boundary Change and Trail Project Decision Notice and Finding of No Significant Impact signed by Blackduck District Ranger, Tracy Beck on June 4, 2009. The analysis for this decision is documented in the North Winnie SPNM Boundary Change and Trail Project Environmental Assessment. The decision considered public input regarding the need to change the boundary. The change will provide the public and agency officials a well defined boundary that is easily identifiable on the ground.

The change to the Semi-primitive Non-motorized Management Area Map (FP, p 3-20) is attached.
