Hello Craig,
I did download them and thanks so much for getting them up on the ftp site. Its awesome when data requests are painless. Good luck on your endeavors. Cheers.

Hi Salek,
Those reports and the revisions to the BA are currently out on our FTP site -- please see the instructions below. Please let me know when you have finished downloading them.

Thanks, Craig

[FTP Instructions](#)

To start, go to: ftp.eroresources.com in a web browser.

Any time you are asked to log on, use the following --
Username: ERO\CWCFTP

Password: GVea08

Click on ERO, then select the CWCFTP folder.

It usually works best if you click on "Page" in the upper right hand menu bar and select Open FTP Site in Windows Explorer. Once the FTP site is open, you can copy or drag files in or out of the folder.

Hello Craig,
Thanks for the shapefile.
I am interested in a few items from "Chapter 6.0 Literature Sited" at the end of the EA. Electronic versions are fine. If they are too big to email, maybe ftp (if you have a site) or a CD/DVD would be awesome. Thanks.

Hi -- attached are the shape files for the recharge sites identified in Figure 4 of the CWC Revised Draft EA.

I'm still not exactly sure what information you are looking for with respect to our site investigations along the Santa Cruz River ... and how you plan to use it in your EIS process. I can be sure I send you the right thing if I know what type of information you are looking for and its purpose.

Let me know if you have any questions.

Craig

Date: 01/13/2009 01:17 PM

All,

I spoke with Bev Everson concerning this email, and she asked that I forward it to you because she was out of the office until later in the day. I also understand that Tom Furgason is out of town. If appropriate, please distribute this to others in your organization who will be attending the meeting on Thursday (1/15). Please limit distribution those persons who are actively involved in the Rosemont project. Thank you.

Jim

Subject: Rosemont Draft Data Transmittal - For Review Purposes Only

Bev,

I am providing draft versions of the tables, illustrations, appendices, etc. for the Rosemont Drilling, Testing, and Monitoring report to you for review and consideration prior to our technical meeting on Thursday, January 15, 2009. We feel this information will make for more productive and pertinent discussions at the meeting. Could you please forward this email to those persons from USFS, SWCA, and SRK (others?) who will be attending the East-side meeting on Thursday, so that they have a chance to review it prior to the meeting?

Unfortunately, the electronic files are too large to fit in email, so we have placed it on our FTP site. You should be able to download it there. Please use the following information to download the files:

Via Internet Explorer, go to <ftp://ftp.elmontgomery.com/array1>

Username: **emaftp**

FTP Password: **watershed1012**

Go to the file folder "**ftp**", then click on the file folder "**Jdavis**", then right click on the zip file "**Draft USFS Data Transmittal - Jan2009.zip**", and follow download instructions. After you download the file, you'll be prompted for another password:

File Password: **Rose56** (case-sensitive)

Important: Download the file first, then unzip it on your local computer, using the File Password supplied. Please remember that these files are DRAFT and for Review Purposes Only.

Please let me know if you have any problems downloading or opening the file.

Thank you,
Jim

Roger-

I sincerely apologize that you keep receiving alerts with links to the website that you can't use. I'm sure that could be very frustrating. I hope that our client workspace will help facilitate getting documents to you for review. I have uploaded all the most recent reports that we have received. If you look and don't find something you are looking for, please call me.

Go to (b) (4), click on Login in upper right corner-

Login: (b)

Pswd: (b) (4)

All of the documents will finish uploading in the next half hour. Let me know if there is anything I can do for you.
Thanks!

Melissa Reichard
Project Administrator

Thanks for the quick review Debby. My responses below are in red.

Tom

1. When he states "to be provided by engineers", he means Rosemont, right? **I'm not sure what he means, but it is our intention that it will be Rosemont's engineers.**
2. I recommend more than one review with the Forest Service and Rosemont during the 30 days. Perhaps one in Tucson (as stated), plus 1 or 2 via conference call or on-line. **I will request that he include the additional reviews in his SOW and cost.**
3. If Marcie and Salek are available to review the proposal very quickly (within a day or two), please send it to them for review. **I have forwarded Horst's SOW and your email.**
4. McCleary is misspelled. **Acknowledged.**
5. At what point should this be forwarded to George Annandale? Has George's work been funded yet? **I would like Dale to weigh in on the timing. Golder's work has been funded.**

Subject: RE: Rosemont Copper Project Landform Design Study Proposal

I've reviewed Horst's proposal. It looks good to me, and if he can create something that mimics the surrounding landforms and functions well, this is a bargain. I do have a few comments:

1. When he states "to be provided by engineers", he means Rosemont, right?
2. I recommend more than one review with the Forest Service and Rosemont during the 30 days. Perhaps one in Tucson (as stated), plus 1 or 2 via conference call or on-line.
3. If Marcie and Salek are available to review the proposal very quickly (within a day or two), please send it to them for review.
4. McCleary is misspelled.
5. At what point should this be forwarded to George Annandale? Has George's work been funded yet?

Thanks!

Subject: Rosemont Project - RFP re: Site Water Management Plan

George,

Attached is a RFP regarding review of the Site Water Management Plan for the Rosemont Project. The plan itself is a rather large document, mostly due to figures and appendices, and will be available to you via SWCA's FTP site. Please contact Melissa Reichard at SWCA (520-325-9194) for assistance in accessing the site and downloading the document. This project is time critical and I would very much appreciate that you get back to me as soon as reasonably possible.

Cheers,

Dale

PS..... I am currently not in Arizona and without cell coverage, if you wish to call please use 435-682-2777. I will be returning to Arizona June 16th.
