Subject: Rosemont DEIS - Visual Quality - Affected Environment Review

Here are my comments and some references (per a comment I made in the text). The figures are attached to Marcie's email message below.

Ruth: Can you add your comments to this marked-up version, or is it too messy?

Terry: As your time permits, I'd appreciate you giving this a quick review for general flow, consistency with other resources, red flags, etc.

Thanks.

Subject: Figures and updated text
t

Hello Debby,

Here are the figures and an updated document.

I think you are right that perhaps you should review it and then have RO review it, rather than do them simultaneously. This would still keep the RO review moving, and more likely make sure that you approve of the product before it goes to them.

<<Figures_draft 2010-07-26.pdf>> <<Rosemont Ch 3_Draft AE_2010-07-26.doc>>

Eventually, when this goes to editing, the figures will be inserted in the text as part of 3.9 or as an appendix.

I can discuss this with you tomorrow, how about 1:00 AZ time?

Thank you,
Marcie

Subject AZ Trail Jamboree

History:  This message has been replied to.

Debby,

Here is the link to the map of the AZ Trail Jamboree ride from last weekend:
http://topofusion.com/maps/Jamboree/AZT_Jam_Web.jpg

Here is the link to the web site with more information: <http://topofusion.com/jamboree.php>

The other mountain bike event recently held in the area was part of the Arizona Endurance Series. The start/finish was near Rosemont Junction and did a big loop around the Kentucky camp area (<http://rockyroad5050.wordpress.com/salero-ranch-race/>). I have no idea what the participation was, but it would be easy to find out. Both events were organized by the same group of people.

As I mentioned during our meeting yesterday, the mountain biking community is becoming more aware of the area and I expect use of the Las Colinas segment of the Arizona Trail to increase steadily.

Please let me know if the Coronado would like me to unofficially reach out to the organizers to let them know about the need for special use permits for events like this on the Coronado.

Hello Terry,
I couldn't find your phone number in any of the emails with your name on it. Are you taking calls or do you just communicate with email.
Cheers.

Subject Preliminary Draft EIS

Hello All-

Our latest draft of the Draft Environmental Impact Statement has been posted to WebEx. The link below will lead you to the cover of the document. Once you open it, it will lead you to the file folder within WebEx that holds each draft chapter of the document. Bev has sent emails previously with the directions to the IDT. Please refer to Bev's emails for review directions and timelines. This document is still a rough draft and is for deliberative purposes only.

Subject Rosemont IDT homework - core and extended teams

For core and extended, the following homework needs to be completed by the dates indicated. A lot of this work is not new to the team, however, at this point the work needs to have a wrap-up date.

1. **Read all public comments** on the project that are applicable to your resource area (**October 30** deadline; this is something that I have asked the team to do for several months).

2. **Review the draft DEIS**, located in the "EIS" folder and divided into chapters to make downloading easier (**November 6** deadline). This a very, very draft DEIS, and your review should be BRIEF...the intention is to

identify holes in the draft DEIS (of which there are lots) and to check the legal framework of the document.

3. **Complete the past present and future actions table**, to be forwarded to you shortly (**November 6** deadline; note that the deadline has been extended from October 30).

4. **Review the alternatives disposal task list**, also to be forwarded shortly (**Nov. 6** deadline); note that a few people have specific tasks to complete.

Please let me know if you have questions, or if there is something I can do to help everyone make the deadlines).

Thanks -

Bev

Hi Tom,

I was able to access your draft and download to review.

(b) (5)

It's best if you review it in FINAL rather than FINAL SHOWING MARKUP to keep from getting a headache.

Also, i didn't want to try to upload it to our WebEx page and mess up the Team Working files.

Feel free to share with whomever I did not include on my cc: list.

Bev,

This is regarding your comment:

(b) (5)

These are the numbers we received from Rosemont when queried with the specific question. Their technical memo dated 4/2/09 states:

1. Due to the irregular topography, this volume has not been characterized; however, 1,830,599 thousand tons of material will be extracted from the pit. However using those volumes and an average rock density of 3,375 pounds per cubic yard (Reclamation Plan Appendix B), the volume would be approximately 1,100 million cubic yards.

2. The Dry Tailings Facility Design report Section 3.3 discusses the in place dry density of the

tailings to be 109 pounds per cubic foot. The total amount of tailings to be stored (Section 4.3) is 500 million tons. Therefore the approximate volume is 340 million cubic yards. Similarly, information on run of mine rock can be found in the Reclamation Plan Equipment Productivity, Appendix B. The density for run-of-mine rock 3,375 pounds per cubic yard . Applying this number to the waste rock the volume would be approximately 764 million cubic yards.

(b) (5)

Thanks,

Jill

Hi Dale,

Would it be possible to get an electronic copy of SRK's SOQ? Bev Everson would like to transmit your quals to some specialists in other offices for review. Ideally, we'd like the SOQ and resumes of key staff. I know that you are out this week, so let me know if there is somebody in the Tucson office that I should contact. Thanks.

Tom

Subject: FW: Water Resources Technical Review Update
Attachments:

Importance: Low
Priority: Normal
Sensitivity: None

All- below is Dale's status update on water resource reports.

From: Dale Ortman PE [mailto:daleortmanpe@live.com]
Sent: Thursday, August 05, 2010 6:19 AM
To: Tom Furgason; Jonathan Rigg; Melissa Reichard
Subject: Water Resources Technical Review Update

All,

Here is a short update on the status of the technical review for Water Resources:

1. Mine Water Supply Pumping Model (Montgomery): MWH Draft Tech Memo reviewing second round of technical comment & response forwarded to CNF for comment; awaiting CNF comment prior to MWH finalization and forwarding to Rosemont
2. Mine Site Groundwater Model (Montgomery): Issue resolution process in progress; Received incomplete preliminary draft of revised groundwater model report; SRK to review under recently authorized budget
3. Mine Site Groundwater Model (TetraTech): Issue resolution process in progress: TetraTech is submitting individual Tech Memos on parts of the model as they are developed; SRK has reviewed and submitted Tech Review Memos for the two TetraTech memos (Model Framework & Hydraulic Properties) under individual SOW's & Cost Proposals; SRK to start review of Model Construction & Steady State Calibration memo under recently authorized budget; Awaiting submission of TetraTech memos on Transient Calibration and Impacts
4. Davidson Canyon, Seep & Spring Impact (TetraTech): Revised tech memo submitted by TetraTech (expanded content now includes discussion of riparian vegetation in Davidson Canyon); SRK to review revised memo
5. Pit Lake Model (TetraTech): Issue Resolution process in progress: TetraTech to submit revised

technical memo for review by SRK & CNF

6. Infiltration Fate & Transport Model (TetraTech): Resolution process in progress: TetraTech to submit revised technical memo for review by SRK & CNF
7. Mine Site Water Management Plan Update (TetraTech): Golder submitted draft Technical Review Memo; CNF review & comment forwarded to Golder for preparation of final Technical Review Memo to be submitted to Rosemont.
8. Site water management plan for "Landform" revision to Barrel-Only Alternative: To be submitted by TetraTech along with final description of revised Barrel-Only Alternative

Regards,

Dale

Allen,

Attached for your review is the draft affected environment (AE) noise section for the Rosemont DEIS.

(b) (5)

In addition, please give me a call when you are available to discuss the noise reports provided by Tetra Tech. I would like to make sure that you have reviewed and approved these materials prior to using them in the analyses. With the exception of Friday afternoon, I will be in the office all week and next week.

Best,

Jonathan Rigg

Subject: Rosemont 138kV siting criteria information

Hi Kent and Teresa Ann,
Attached are the siting criteria table and general descriptions of sensitivity levels. Thank you for facilitating our receipt of any comments the Coronado National Forest Rosemont ID team may have on the sensitivity levels provided in the table. We look forward to hearing back from you by Friday, as you suggested. Even if there aren't any comments, please let us know that, too.
Thanks!
Lauren
