

Not R2 Sensitive Species and Not of Concern

Recommendations and Evaluations

Common Name: White-footed Mouse

Scientific Name: *Peromyscus leucopus*

Recommendation: Not R2 Sensitive Species and Not of Concern

Recommendation Rationale:

Described as one of the most broadly adapted species within the genus *Peromyscus*, esp. with regard to habitat and trend. Widely distributed and fairly abundant throughout its range. R2 at periphery of its range. However there is a potential risk related to impacts of grazing on riparian habitats in R2.
